

Invitation Molen Festijn Schiedam

Saturday May 9th 2020, 11:00-17:00

Official opening at 12:00

The windmill route in the cozy and historical atmosphere, in and around the windmills. With millers, old crafts, actors and extras in traditional clothing, live choirs, a traditional market with a wide variety of products and much more.

The festivity's are free to enter for visitors of all ages, *will you be there?*

We are going back in time to 1880, when Schiedam still had over 20 giant windmills. The route that connects these windmills is transformed to a festive area. Next to old crafts, millers, live street music and a traditional marketplace u can also expect to see dance performances, poetry, a historic car show, food truck and an art exhibition by Gewiekste Kunst.

Of course there are all kinds of interesting and fun activities in and around the historic mills, with activities to suit all the different visitors. Some of these activities include: What does a miller do, how do the windmills actually work and, of course, taste the incredible products that are produced in the mills. Because of the national mill day all the mills will be fully functional and you will be able to, free of charge, visit most of them. Every mill has its own activities! The size and stature of Schiedam's mills will impress you as they are the biggest traditional windmills in the world. Do you dare to climb all the way to the top of these giants? In our coy and beautiful historical town center you can make use of all the Crazy Mill Month's deals offered by several museums, stores and food & drinks establishments.

The Molenroute will start at Doeplein 6 and end at the Westvest 229.

We hope to see you there!

Organized by the Triple C foundation in collaboration with De Schiedamse Molen foundation.

Under approval of the necessary permits and finances.
